

Town of Southwest Ranches Job Description

Title: **Engineering Inspector**
Department: Public Works Department
FLSA Status: Exempt
Reports to: Public Works Director/Town Engineer

General Description:

Under the supervision of the Public Works Director, employee is responsible for conducting inspections on Town engineering and construction projects for compliance with existing codes, plans, specifications, and standard construction practices during and after construction. Employees in this classification protect the Town's interests related to infrastructure projects; provides information, clarification, and assistance to contractors, consultants, developers and the public regarding Town construction projects and activities. Performs related duties as required.

Essential Functions:

1. Inspects roads, highways, sewers, and storm water construction projects in the Town's right-of-way, to assure conformance with plans and specifications.
2. Inspects, reviews, and approves applications for permits for the construction and/or repair of sidewalks, curbs cuts, swales, driveways, and other projects requiring engineering approval.
3. Inspects public facilities and/or improvements in the Town to ascertain extent and method of repairs or maintenance required.
4. Inspects telephone, electric utility, cable television, and other franchise utility installations.
5. Assists contractors and engineers in interpreting plans and specifications let out on contract; checks materials and shop drawings.
6. Reviews engineering permits; transposes field notes to maps; drafts and answers complaints and information requests from the general public.
7. Investigates complaints and requests received in the engineering office, investigates encroachments into the public right-of way, investigates water or flooding conditions; investigates poor road conditions such as rough pavement or holes.
8. Inspects all work pertaining to drainage according to plans and specifications.
9. Acts as construction inspector for general parks construction; acts as liaison between Town and subcontractors for drainage, utilities, or road projects under construction; reviews plans and specifications to ensure accuracy in construction; inspects concrete.
10. Prepares comprehensive reports on all projects as to the progress and difficulties encountered on a weekly basis.
11. Controls / **supervisors supervises** over work with all Town departments affected by engineering construction and inspects construction of public utilities.
12. Maintains engineering inspection records online. Archives plans using Town's offsite storage protocols.

Town of Southwest Ranches Job Description

13. Establishes and maintains effective working relationships with contractors, the general public, Town officials and others involved in construction.
14. Makes detailed technical inspections to enforce regulations firmly, tactfully, and impartially.
15. Reads and interprets engineering drawings and maps with high degree of accuracy.
16. Inspects projects under construction to detect deviations from approved designs, specifications, and construction practices.
17. Prepares and maintains accurate weekly inspections records to prepare and submit clear and concise reports.
18. Inputs data and calculations into the computer and evaluates the output.

The list of essential functions, as outlined herein, is intended to be representative of the tasks performed within this classification. It is not necessarily descriptive of any one position in the class. The omission of an essential function does not preclude management from assigning duties not listed herein if such functions are logical assignment to the position.

Minimum Qualifications:
